

SHANMUGA GOWSHIK

SDET-III / Full Stack Automation Engineer

+91-9487572606
gowshik1112@gmail.com

SUMMARY

Senior SDET / Full Stack QA Engineer with 9 years of expertise in designing, architecting, and scaling enterprise-grade automated testing frameworks from scratch. Proven track record in shifting quality left, implementing robust CI/CD quality gates, and driving test coverage across microservices, RESTful APIs, cloud infrastructure, and modern web applications. Expert in test automation (Selenium, Playwright, RestAssured) Passionate about mentoring engineering teams, optimizing release cycles, and embedding quality engineering best practices into agile workflows.

KEY SKILLS

Languages & Scripting
- Java,
- C#
- TypeScript
- MS SQL

Automation Frameworks
- Selenium
- Karate API (Gherkin)
- Playwright
- Eggplant

AI Tools
- GitHub Copilot
- Claude Code
- Microsoft Copilot
- ROVO

Design Patterns
- Page Object Model
- BDD
- TDD
- Keyword Driven

Test Management Tools
- JIRA
- Azure Devops
- Qmetry
- Confluence

CI/CD Tools
- Github
- Jenkins

Domain
- Retail
- Medical
- investment

WORK EXPERIENCE

Deloitte USI Consulting - SDET-III - QA Lead

Sep 2020 - Present

Client - British Columbia Financial Services Authority (BCFSA)

Duration: 2 Years 4 Months

- Created and maintained automated UI test scripts in Azure DevOps for BCFSA.
- Enhanced the automation framework with ExtentReports API for detailed test logging. Performed pre-deployment regression testing to safeguard existing application functionality

Client - Kroger (Present)

- Lead a 5-member QA engineering team driving end-to-end UI and API testing across manual and automated frameworks for Kroger.
- Architected daily automated regression pipelines, maintaining high script stability and expanding test coverage to proactively identify regression defects.
- Act as the primary liaison for client stakeholders, delivering daily quality metrics, risk assessments, and KPI dashboards to foster trust and enforce quality governance.

Adroitent (Cerner Healthcare) — Automation Test Engineer

Mar 2020 – Sep 2020

- Automated complex EMR workflows using EggPlant (SenseTalk) and Selenium WebDriver.
- Integrated automated regression suites with Jenkins and IBM RQM for daily CI execution.
- Managed version control using Git/SourceTree, created reusable script utilities, and logged defect lifecycles in Jira within an Agile Scrum setup.

Wipro Technologies — Automation Test Engineer

Oct 2017 – Feb 2020

- Delivered functional and regression automation for UBS banking application migration using Selenium WebDriver (TestNG) and UiPath.
- Conducted cross-server verification (old vs. new infrastructure), managed defects via HP ALM, and supported client QA sign-offs for production deployments.

EDUCATION

Bachelor of Engineering (B.E.) - 70%
KSR College of Technology, Anna University
2013 – 2017

Higher Secondary (HSC) - 92.5%
SHNV Higher Secondary School
2011 – 2013
